Since 1997 PSA Africa has supplied high quality precision instrumentation for the detection of atmospheric and respiratory hazards including gases; alcohol and substance abuse monitoring systems; and workplace safety equipment for sale or rental. The industries we serve include law enforcement, transport, mining, oil and gas refineries, chemical, construction, environmental, and manufacturing.

OUR PRODUCTS AND SERVICES

> Gas Detection Division

We have extensive experience with gas detection techniques. We've been an MSA approved distributor since 1997, supplying their world-renown instruments and providing back-up services. Products include the top of the range Ultima X fixed gas detection series and the Altair 5X portable gas detector amongst others.

> Substance Abuse Division

PSA Africa has been the exclusive authorised distributor for Lifeloc Technologies substance abuse detection instruments in South Africa since 2005, providing maintenance and calibration as well as policy formulation and training.

> Alcohol Testing

Our professional breathalysers have a proven track record and are used extensively in the workplace and by law enforcement on our roads. Our products range from the easy to use portable FC10 to the high volume use, operator free fixed FC 5 Sentinel.

> Automated Alcohol Testing

A wall mounted breathalyser that can easily integrate with other access control systems such as a turnstile and ID card reader. A positive reading automatically denies access to safety sensitive areas without human intervention.

> Altair 4xr Mining Multigas Detector

Outfitted with rapid-response MSA XCell® sensors, the ALTAIR 4XR Gas Detector is the toughest 4-gas monitor on the market and is backed by a 4-year warranty. The ALTAIR 4XR can also provide real-time incident awareness to team members, supervisors, safety managers and others when paired with the MSA ALTAIR Connect app via a Bluetooth® wireless connection.

> Workplace Safety Division

PSA Africa is an authorised supplier of MSA workplace safety equipment including:

> Respiratory Protection Equipment

We supply respirators to the construction, fire, oil and gas, chemical and mining industries. Our product range includes Supplied Air Respirators (SCBA) and Air Purifying Respirators (APR).

> Fall Protection Equipment

We supply a full range of fall protection equipment from MSA that includes harnesses, shock-absorbing lanyards, PFL's & rescue devices.

> Equipment Rental Division

Many of our specialised ranges are available on a rental basis for circumstances such as a once-off occurrence, an annual project or an emergency. Our equipment is well-maintained, regularly serviced and accurately calibrated by trained technicians in our state of the art workshop, ready for use at your convenience.

How can we help you? PSA Africa has a network of qualified people throughout South Africa to supply you with high quality products and superior after-sales support. Contact us to find your nearest support team.
