## PORTABLE BREATHALYSERS

PSA Africa is a leading supplier of safety solutions across Southern Africa since 2005. As an authorised service provider of Lifeloc Technologies, we deliver world-class breath alcohol testing devices along with full support, calibration, policy formulation training and servicing to ensure accuracy and compliance in every workplace.

### LIFELOC FC5

The FC5 is a lightweight, portable alcohol screening device that quickly detects the presence of alcohol without mouthpieces.

With simple one-button operation, it delivers reliable results for workplaces, schools, law enforcement and security settings.

### LIFELOC FC10

The FC10 is a rugged, portable alcohol tester trusted worldwide for its accuracy and durability.

Using advanced fuel cell technology, it delivers fast, precise readings with direct or passive testing and simple one-button operation, making it essential for effective alcohol testing programs.

### LIFELOC FC20

The Lifeloc FC20 is the most advanced handheld alcohol tester, trusted for its accuracy, reliability and ease of use.

Featuring a backlit display, intuitive menu and built-in result storage, it uses fuel cell technology to deliver fast, precise readings in demanding environments. Ideal for law enforcement, corrections and workplace testing.

### LIFELOC LX9

The Lifeloc LX9 is a powerful handheld alcohol tester engineered for fast, accurate and reliable results.

Utilizing proven fuel cell technology, it excels in workplaces, law enforcement and safety-critical environments. Its ergonomic design, backlit display, intuitive menu and advanced data management make operations simple and record-keeping efficient.

# FIXED BREATHALYSER

The Lifeloc Sentinel is a professional-grade fixed alcohol monitoring system for continuous and on-demand testing in demanding environments.

Using proven fuel cell technology, it delivers highly accurate and reliable results to support compliance and safety. Built for heavy use, it features intuitive controls, clear displays and robust data management, making operation and record-keeping simple.

Ideal for workplaces, law enforcement and correctional facilities. It helps organizations enforce alcohol policies and maintain safer, more accountable environments.

The unique design of the FC5 Sentinel allows for easy serviceability and maintenance.

Instructs Users when to Blow

Test Pass Entry Allowed

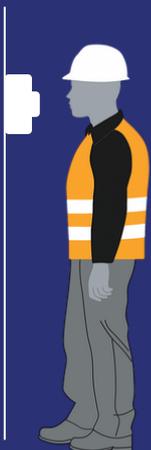

Test Failed

No Entry

## SENTINEL TEST PROCESS

### NEG Result

- Card Reader turns on and employee can swipe card and open turnstile.

### POS Result

- Card reader remains off and employee won't be able to swipe card. Alarm sounds and stops them from entering.
