

SKED STRETCHER

PSA

WHERE SAFETY MEETS TECHNOLOGY

The **Sked** Basic Rescue Stretcher is a revolutionary design that is suitable for safety in confined spaces, high angle or technical rescue locations and traditional land based applications.

SKED RESCUE SYSTEM

The Stretcher is rolled for storage in a tough cordura backpack which is included in the system. The system ships at 8.6Kg and comes complete for most applications. The durable plastic provides protection for the patient while allowing extrication through the most demanding confined spaces. Stretcher becomes rigid when carrying patient.

FEATURES

- Sked stretcher
- Cordura backpack / towing harness
- Horizontal lift slings
- Vertical lift sling
- Tow strap

APPLICATIONS

- Horizontal hoisting by helicopter
- Vertical hoisting in caves
- Hoisting in confined industrial spaces
