

ULTIMA® X5000 GAS MONITOR

DETECT LEAKS. PREVENT RISKS. PROTECT LIVES.

THE ULTIMA® X5000 GAS MONITOR IS THE FUTURE OF GAS DETECTION FOR OXYGEN, TOXIC AND COMBUSTIBLE GASES.

SENSOR STABILITY

TruCal technology actively monitors sensor integrity, compensates for environmental factors and sensor performance.

REDUCED DOWNTIME

The sensor allows for extended calibration intervals up to 24 months ensuring accurate detection between calibrations.

CONTINUOUS SENSOR INTEGRITY

An industry first, Diffusion Supervision warns if the sensor inlet becomes blocked and unable to detect gas

SENSOR REPLACEMENT WITHOUT DOWNTIME

Enables safe and quick XCell Sensor replacement without declassifying or powering off the gas detector.

XCell

TruCal

Self-checking technology that **ENSURES** operation & accuracy.
